PROFESSIONAL SUMMARY

A motivated and hardworking student from the Polytechnic University of the Philippines with a strong interest in web development. I have experience in both frontend and backend technologies, I enjoy learning new tools, solving problems, and collaborating with others. I'm eager to grow professionally, contribute to a team and make a positive impact wherever I work.

EXPERIENCE

Full Stack Web Developer | Freelance sideline MontecarloTechnologies, Remote

May. 2025 – Aug. 2026

- Built clean, user-friendly UI and UX for web pages and web apps, with layouts that improved clarity, flow and ease of use across desktop and mobile screens.
- Turned Figma mockups into responsive static landing pages, matching the design with clean structure, consistent spacing and user-friendly layouts across desktop and mobile screens.
- Developed backend functions, database-driven features and system integrations to support dynamic websites, form handling, content updates and core business operations.

Frontend Web Developer | Academic Internship JAEHUB, 300 Hours

July 30, 2025 – Oct. 11, 2025

- Developed frontend pages for a wedding website with responsive layouts, clean structure, and smooth browsing across desktop and mobile devices.
- Created Figma mockups and turned them into static website pages with consistent spacing, clear sections, and organized frontend code.
- Edited video content and visual materials used for digital presentation to support the website's overall look and content delivery.
