Aspiring Full Stack Developer & Web Designer

Antipolo City, Philippines | +63 9125240151 | dawnzach@gmail.com

Portfolio: zach-eos.vercel.app | LinkedIn: [@zachjcruz](https://www.linkedin.com/in/@zachjcruz)

EXPERIENCE

Freelance Jr. Full Stack Developer

May 2025 – Aug 2026

Monte Carlo Technologies (MCTech) | *San Pablo City Laguna*

- Developed CMS-based websites from Figma mockups to responsive frontend pages, then built backend features, database functions, and dynamic content management.
- Integrated website features including form handling, email sending, content updates, and basic on-page SEO while maintaining responsive UI and user-friendly UX across desktop and mobile screens.
- Managed website deployment and production updates through GoDaddy and cPanel, handling server files, configurations, releases, and ongoing website maintenance.

Frontend Web Developer Intern

July 2025 – Oct 2025

JAE HUB Software Solutions (JAE HUB) | *Quezon City Metro Manila*

- Developed responsive frontend pages using React for a wedding website, focusing on clean UI, smooth UX, clear navigation, and consistent layouts across desktop and mobile devices.
- Led the development team by reviewing work, debugging frontend issues, and managing code collaboration through Git and GitHub to maintain stable and organized development.
- Transformed Figma mockups into React-based web pages and produced supporting video and visual content, maintaining design consistency and improving the overall web experience.

EDUCATION

Diploma In Information Technology DIT

2023 – 2026

Polytechnic University of the Philippines, Manila
